## SUMMARY

Computer Science student at Binus University with a strong focus on Cyber Security, Networking, and Software Development. Highly passionate about penetration testing, vulnerability assessment, and building secure systems. Equipped with practical knowledge from intensive cybersecurity bootcamps and proven leadership experience in developing technology-focused educational programs. Actively seeking an IT internship to apply technical skills in a dynamic professional environment.

## EDUCATION

**Bina Nusantara (Binus) University Bachelor of Computer Science** **2024 - Present**

- Cumulative GPA: 3.87 / 4.00
- Focus: Cybersecurity (Red Team), Programming, Network Security

## ORGANIZATIONAL EXPERIENCE

**Yayasan SMK Swasta Mandiri Bersemi, Cianjur** **2026 - Present**

Co-founded and developed the Student Development Club (SDC), an extracurricular program designed to help students discover and hone practical skills specific to their fields of interest. Formulated the curriculum and learning systems to foster student achievement and technological literacy.

**Bina Nusantara Computer Club (BNCC) | HRD Activist** **2024 - 2025**

Managed human resource activities, member engagement, and organizational development within the university's largest computer club.
